## **BODY ARTS EVENT REQUIREMENTS**

The following criteria must be met for the operation of a temporary body art event in the county of Contra Costa. Failure to meet these requirements

### **STRUCTURAL REQUIREMENTS:**

#### **Procedure Area/Booth**

Every event shall have and maintain a procedure area for performance of the body art activities that meets the requirements set forth in Article 5, Section 119317 of the California Safe Body Art Act. These requirements include, but are not limited to:

- Be in a building with hand washing facilities with hot and cold running water, soap, and single-use paper towels that are accessible to the practitioners.
- A partition from the public that is at least 3 feet tall.
- Adequate lighting
- Hand washing equipment in the practitioner area consisting of a containerized liquid soap, single-use paper towels, a five-gallon or larger container of potable water accessible via spigot, and a wastewater collection and holding tank of corresponding size.

#### **Decontamination/Sterilization Area**

The decontamination/sterilization area must be separated from the procedure area by at least 5 feet or a cleanable barrier.

#### **Restrooms**

Approved restrooms with hot and cold water shall be provided within proximity to the body art event site, not to exceed 300 feet travel distance.

### **EQUIPMENT AND DISPOSAL REQUIREMENTS:**

#### **Body Art Instruments**

All body art instruments used in a temporary body art event are to be single use only.

#### **Disinfectant**

An Environmental Protection Agency (EPA) registered hospital grade germicide (iodophor, phenolic, quaternary ammonium or alcohol containing) germicide or 1:100 dilutions of household bleach and water shall be used to clean any surface contaminated with blood or body fluids.

#### **Chemicals**

All chemicals shall be properly labeled and stored.

#### **Refuse Containers**

Adequate covered cleanable receptacles shall be provided in each workstation for disposal of trash and debris.

**Medical Waste Disposal**

Each work area shall have an approved bio-hazardous labeled sharps container for the disposal of objects that come in contact with blood or body fluids. All bio-hazardous waste shall be collected and removed for proper disposal by an approved medical waste hauler.

**Equipment Sanitization**

Any re-usable equipment, including trays and chairs, must be sanitized in an approved manner before and after each procedure.

**OPERATIONAL REQUIREMENTS:****Procedural Requirements**

Practitioner will be required to comply with all requirements of Article 3 of the California Safe Body Art Act. These requirements include, but are not limited to:

- The body artist shall not smoke, eat, or drink at the workstation or cleaning room during or between procedures.
- The body artist shall thoroughly wash hands and forearms with soap and warm water before and after serving each client.
- The body artist shall wear new clean disposable examination gloves for every client during the procedure. Under no circumstances shall a single pair of gloves be used on more than one person.
- The body artist shall single-use drapes, lap clothes, or aprons for each client.
- All substances used in the procedures shall be dispensed from containers in a manner to prevent contamination of the unused portion.
- Single use ointment tubes, applications and supplies shall be discarded after each body art procedure.

**Blood-Borne Pathogen Training**

All body artists shall show proof of having received blood-borne pathogen training.

**Certification Requirements**

All participating body artists shall be required to have a valid county or state registration identification number.

**Pets or Animals**

Pets or other animals shall not be permitted in the facility. Trained guide or assistance animals for the disabled are exempted.
