

Your Opportunity to Learn What Local Companies Are Doing to Prevent Accidents

The California Accidental Release Prevention (CalARP) Program, Contra Costa County’s Industrial Safety Ordinance (ISO), and the City of Richmond’s Industrial Safety Ordinance (RISO) require companies with regulated chemicals to submit a Risk Management Plan (RMP) and Safety Plan (SP). Plans include:

- A description of the hazardous materials present,
- The accident prevention programs in place,
- The facility’s emergency response program, and
- The management systems that are in place to implement the overall program.

The CalARP Program requires the Contra Costa Health Services Hazardous Materials Programs (CCHSHMP) to perform document reviews and audits to ensure companies comply with the CalARP/ISO/RISO regulations and are following the programs listed in their RMPs and SPs. A forty-five-day public comment period for the Preliminary Audit Findings and RMPs listed below begins on **March 28, 2022** and will end on **May 12, 2022**.
