

**Excerpt from January 10, 2020 Operations committee meeting Item 5.b) Review
Committee Priorities.**

The committee review the minutes from the Commission retreat in 2016 and the Commission annual reports from 2017, 2018 and 2019. They then listed the following issues as ones they want to pursue in 2020.

- Examine the impacts of the recycling of lithium batteries. (full Commission)
- Review the implementation of SB 1000 (Environmental Justice) in the development of the County's General Plan.
- Continue to receive updates on the emerging impacts and regulation of PFOS. (full Commission)
- Conduct interviews for the ad-hoc student seat on the Commission.
- Conduct the interviews for the new Environmental Justice seat and the vacant Environmental Seat.
- Hold public meeting on the ISO Safety Culture Assessments requirements.
- Track the implementation of SB 617, the community air pollution risk reduction effort, in Richmond.
- Track the implementation of the County's Pharmaceutical Ordinance.
- Continue to learn about the impacts of the proposed deepening of the shipping channel in SF Bay and Carquinez Strait (full Commission).
- Consider co-sponsoring another cybersecurity workshop.
- Track the implementation of the Air District Rule 11-18 concerning Air Risk Assessments.
- Receive an update on the impacts of Sea Level Rise from the Hazardous Materials Program (full Commission).
